About Us

Savvy Strategies Consulting is a national consulting firm dedicated to helping nonprofit organizations grow their impact through strategic planning, fundraising, governance, and organizational development. With extensive experience in both nonprofit leadership and consulting, we deliver real-world insights and customized solutions to every engagement.

Through our consulting and training, we work alongside nonprofit leaders to strengthen operations, build capacity, and drive mission success. Whether guiding a strategic planning process, launching a revenue strategy, or conducting an organizational assessment, our approach is grounded in relationships, responsiveness, and achieving results.

Savvy360^o at a Glance

Savvy360TM is a comprehensive, consultant-led assessment designed to help nonprofits understand and strengthen their organizational health. Grounded in six key pillars that define high-performing organizations, this process combines stakeholder input, document review, and expert analysis to uncover what's working, what's holding you back, and where to focus next. You'll walk away with clear insights, actionable recommendations, and a roadmap to drive alignment, sustainability, and deeper mission impact.

Six Key Pillars

- Governance & Leadership
- Strategy & Mission Alignment
- Fundraising & Financial Health
- Programs & Impact
- Operations & Infrastructure
- Diversity, Equity, Inclusion & Accessibility

Tailored for You

Every recommendation is tailored to your organization's unique mission, capacity, and goals, allowing you to act on it immediately.

Depth Over Data

Even without perfect data, we uncover the story behind your organization through stakeholder voices, expert analysis, and sector-savvy evaluation.

Built for Action

Our assessment doesn't sit on a shelf. It drives clarity, builds alignment, and creates momentum for real change.

Organizational Health Rating Scale

As part of the Savvy Insight360 assessment, each of the six core elements of organizational health is rated on a scale of 1 to 5. These ratings reflect both current performance and readiness for future growth, based on stakeholder input, document analysis, and expert evaluation. Organizations should always aim to exceed a rating of 3 in each area—this reflects more than just basic functionality. For overall organizational health, a composite score of 4 or higher indicates strong performance, clear alignment, and readiness to scale impact.

Savvy360 Organizational Health Rating Scale	
5	High Performing: Exemplary performance, proactive, adaptive, mission-driven
4	Strong: Effective, aligned practices support mission and strategy
3	Functional: Stable operations, opportunities for alignment and growth
2	Emerging: Basic systems in place but inconsistent, focus required
1	At Risk: Significant gaps, foundational issues require urgent attention
